

For Sale

Tipper hoist push button remote control.

Four things to mount, receiver, pneumatic directional control valve and two shuttle valves. All come with push in 6mm air fittings and 4 meters of tubing, just need to mount, plumb up air and 12-24 volt supplies.

Then tee into existing air lines to tipper valve and now you will have manual in cab control and hand held remote control, push and hold for raise or lower.

Cost \$950.00 plus GST

Can be fitted DIY, it will come with instructions and a drawing or we can fit it at \$65.00 per hour plus GST with no km rate.
